

ARCTICO₂ MULTI

ARCTIC & ARCTICO₂ MULTI MULTICOMPRESSOR UNIT

Depending on the application, ARCTIC&ARCTICO₂ MULTI is a standard or specific solution for refrigeration. They ensure energy- efficient cooling, superior quality control of products and raw materials, and energy savings.

With multicompressor units we provide a complete solution for cooling in industrial and commercial applications. Depending on the application, we can produce custom made multicompressor units adapted to the project requirements.

In accordance with the environmental protection requirements, we have developed transcritical multicompressor units that are featured energy efficiency, operational safety, flexibility and a specific design.

For the needs of the application in supermarket chains, logistics and the food industry, we also provide CO₂ mini booster cooling units with 2 or 3 compressors and refrigeration capacity of up to 50 kW (MT and LT regimes), which are featured by reliability and very compact dimensions. Our range also includes HFC alongside CO₂ multi- compressor refrigeration units.

TECHNOLOGY

Since 1981, we have been building and improving business in the segment of air conditioning and refrigeration technology.

Over the years, we have developed the production of refrigeration equipment in our own production centre using technology and machinery that allow a more flexible approach to the needs of customers.

Leveraging robotized production, we've automated business processes, increased efficiency, enhanced quality, and shortened delivery times.

Our expertise lies in the manufacturing of cold rooms, refrigeration doors, and refrigeration units. The high flexibility of production program enables the creation of custom-made products tailored to specific market needs.

WHAT WE OFFER?

A long-term business relationship, a professional approach to collaboration and 360° support.

HIGH QUALITY PRODUCTS

- Comprehensive refrigeration solutions
- Custom - made solutions according to customer requirements
- Factory production control and thorough inspection of finished products
- Reliable, safe, user-friendly, and energy-efficient refrigeration solutions
- Fully compliant with EU and ISO standards

EASY FOR INSTALLERS

- Quick and easy assembly without the need for power tools or silicone
- High level of assembly readiness
- Superior packaging standards to ensure safe transportation and protection of goods

PRODUCTION AND DELIVERY ON TIME

PRESALES AND ENGINEERING SUPPORT

SUPPORT OF THE R&D DEPARTMENT AND SERVICE-TECHNICAL CENTER

AVAILABLE SPARE PARTS
